

DIVERSITY in Professional Experience

Sharon Davis

Program Coordinator, Professional Experience

We started with a question....

What is meant by Diversity?

experience

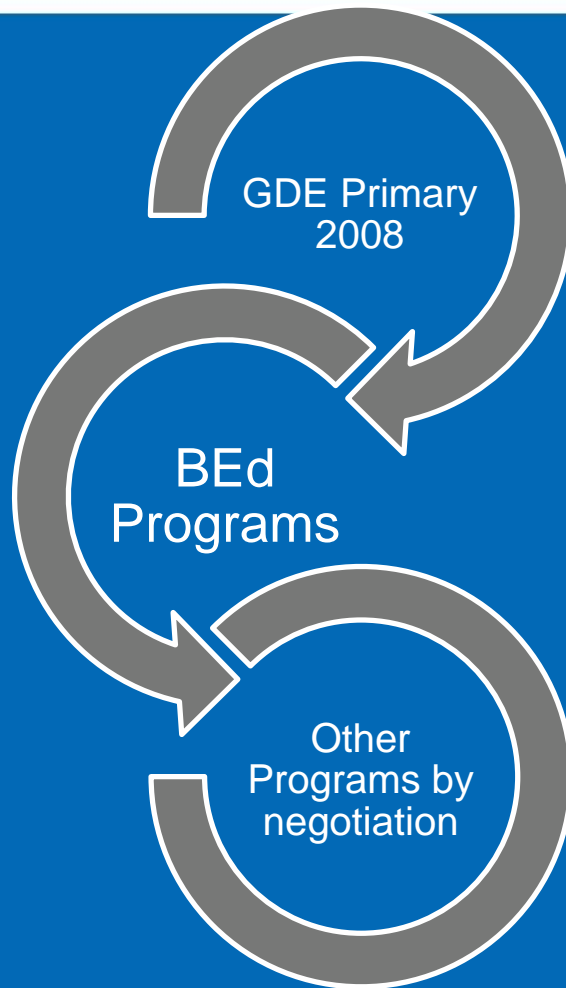

knowledge

Learning styles

Teaching approaches

Focus for Diversity placements:

1. Students
2. You
3. Diversity
4. Post: what has been learned?

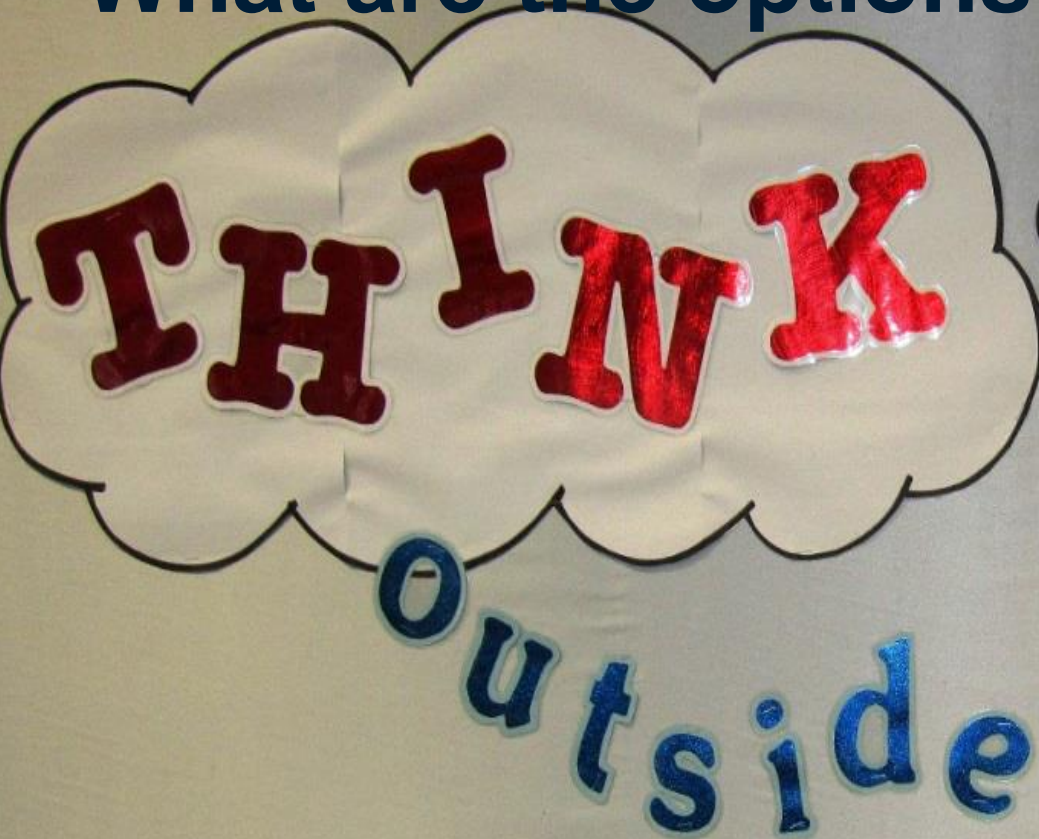

6 or 7 per year

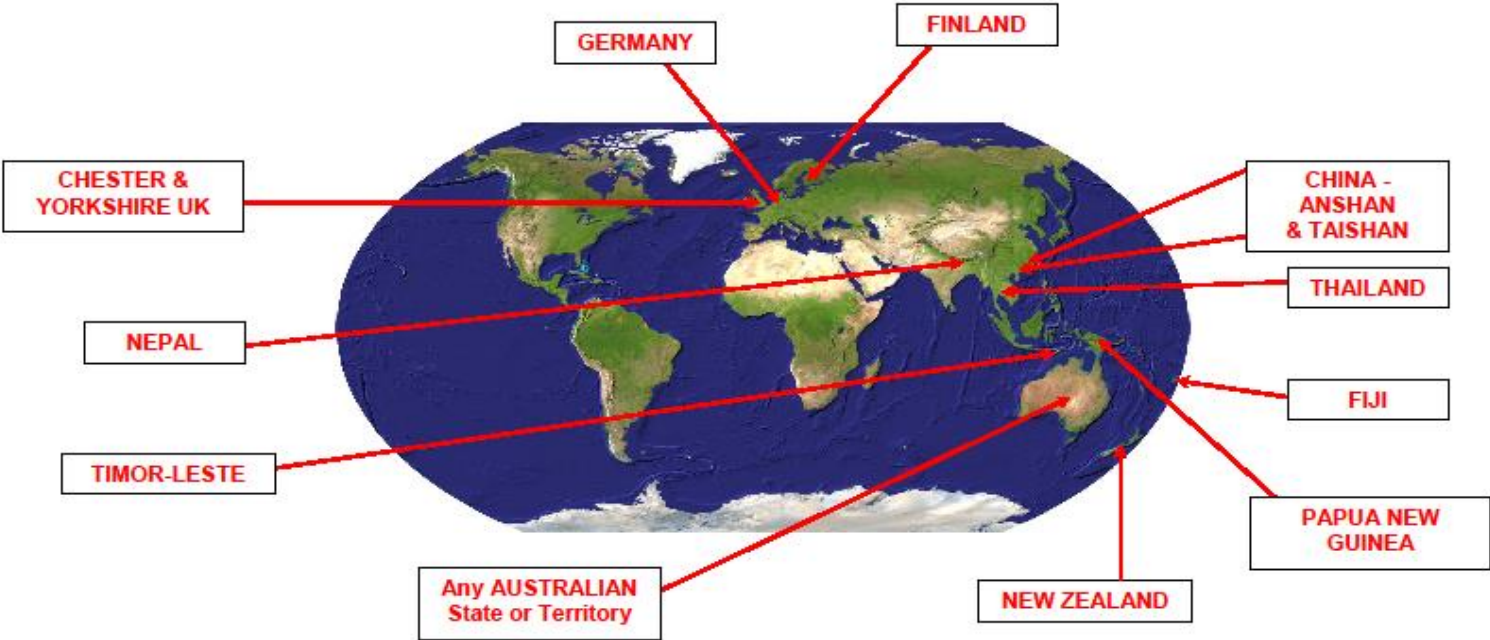

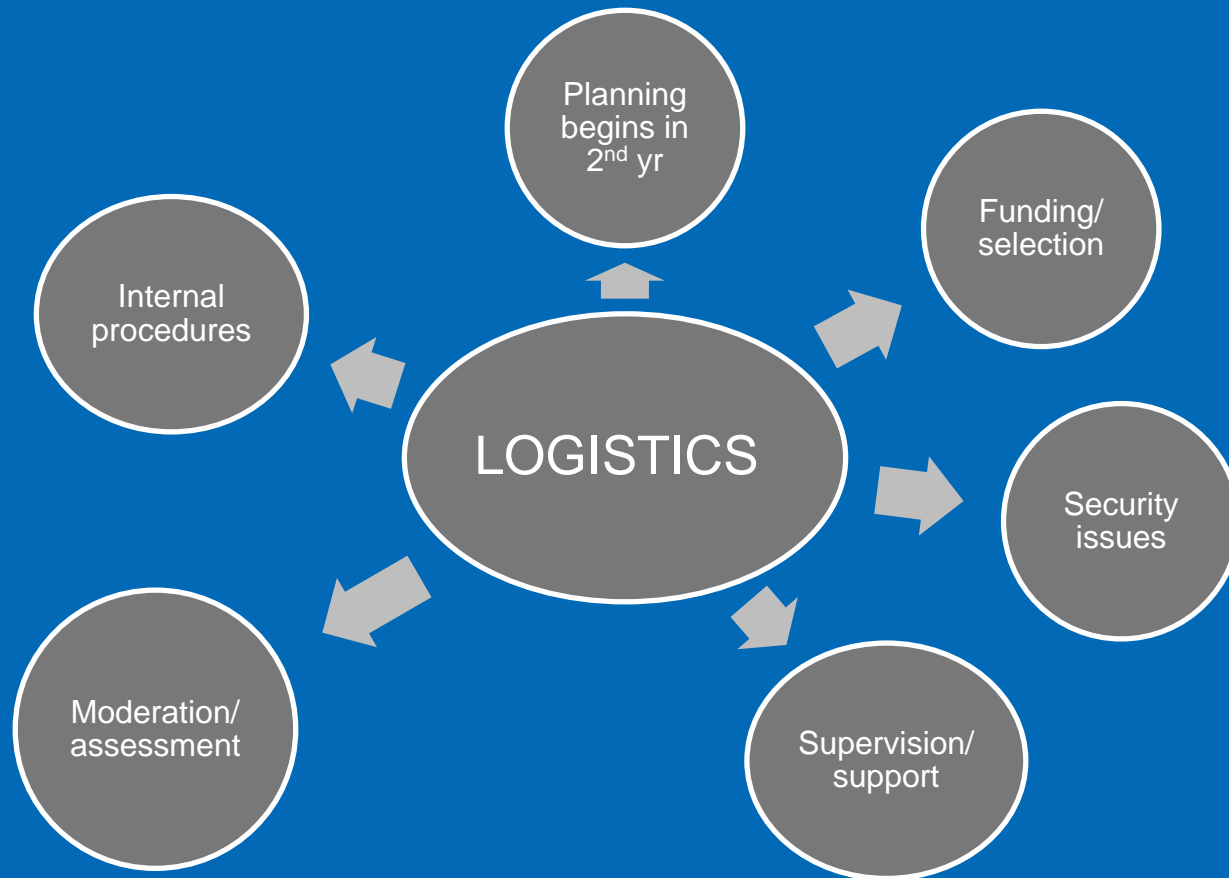

60 to 70 per year

What are the options?

PROFESSIONAL EXPERIENCE PLACEMENTS 2015 - 2016

So, does anyone actually learn anything?

It has opened my eyes to the different areas that a teaching qualification can take you.

I have had a very eye opening learning experience. the whole time has given me a new perspective on how children learn and how my teaching can change to accommodate all ranges of ability and learning within the classroom.

The entire experience exceeded my expectations, and was a constant and significant learning experience for me.

Overall, it is a great experience. You are treated like royalty for your whole stay and the school community loves you.

The hospitality is almost overwhelming.

Bring toilet paper!

Sitting down with Chinese students from a range of year levels (Kindergarten - Year 12) is an experience I'll never forget.
